HYPIWOOD

Slatted + Smooth panels | 2 Handles

Slatted panels | 1 Handle

Smooth + Slatted panels | 1 Handle

Smooth panels | 2 Handles

WOOD PANEL DESIGN OPTIONS

Vertically slatted surface

Horizontally slatted surface

Smooth surface

DIMENSIONS

Max weight [kg] <i>per sash</i>	up to 500
Dimensions [w-h] <i>per sash</i>	4000x6000
Max. Glazing Area [m²] <i>per sash</i>	24
Glazing capacity [mm] Concealed sash= wood panels	Up to 20mm

PERFORMANCE

Air permeability	up to Class 3
Resistance to wind load	up to Class A3
Water tightness	up to Class 7A

Thermal

Thermal Transmittance [Double glazing]	Up to 1,18 W m² K
--	-------------------

CERTIFICATION

EU Regulatory Compliance	CE & CPR Certified
	EPBD Optimized
	EPD Verified
USA Regulatory Compliance	NFRC Certified

BUILDING INTEGRATION

- External thermal Insulation
- Interior insulation Installation
- Tunnel Installation

TYPOLOGIES

- Manual Pivoting Door
- Double Opening Pivoting Door

SMART SOLUTIONS TECHNOLOGICAL POSSIBILITIES

Locking Systems

- Multipoint lock on frame
- Multipoint lock on sash
- Side load locks

Control & Access

Fingerprint scanner
Numeric keypad
RFID System
HYLINE push buttons
Remote control
Domotics

Sensors & Extras

Controlled opacity
Alarm sensor
A.D. sensor

MOTORISATION

Top motorisation
Concealed motor + closer

WOOD COLOR OPTIONS

HY-RAL9016 Pure White
HY-RC-550 Teak
HY-RC-650 Nutwood
HY-RC-450 Afrormosia
HY-RC-351 Light Oak

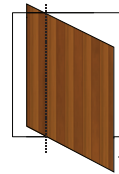

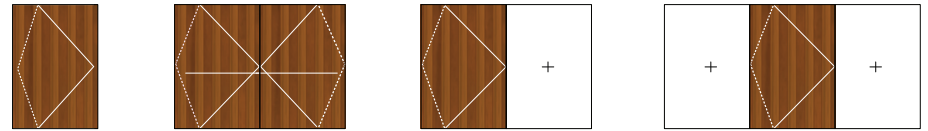

TYPE OF WOOD

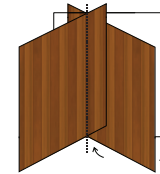

Accoya wood
More stability which gives a high technical performance
Long-lasting results with hywood care kit
Low level of maintenance
Several colors available
Insect repellent effect

TYOLOGIES

Single Action
Automatic or manual

Double Action
Only manual

The warmth of wood. The precision of a pivot.

HYPI WOOD blends minimalist aluminum with natural interior wood, delivering a refined wood-frame look.

Compatible with all HYSTYLE windows types, it features a HYLINE handle accented with matching natural wood and welded exterior bead to create a clean, seamless and premium aesthetic.

The HYPIWOOD system provides a unique and sustainable alternative. With panels of natural wood, smooth or slatted (horizontal or vertical), applied on both sides of the leaf, this option reflects a commitment to elegance and the environment.

Including all accessories and functionalities available for the glazing range, HYPIWOOD offers a natural and sophisticated aesthetic.

Like HYPI, HYPIWOOD shares the HYLINE WGTech technology, redefining aesthetic and functional standards.

HYPIWOOD is not just another option; it is the expression of sustainability allied with beauty, creating a distinctive, unique, and authentic solution.
